1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 2 to 4 and 9 to 16 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over DE 24 49 085.

The teachings in DE '085 have been addressed in previous office actions and as such a summary thereof will not be repeated. In an effort to overcome the previous rejections, applicants have 1) limited the degree of polymerization for the silane condensate and 2) have provided a Declaration under 37 CFR 1.132. For the following reasons, this is not sufficient to overcome the instant rejection.

On one hand, applicants are reminded that the prior art must be considered for all that is taught therein, including non-preferred embodiments. Thus, while DE '085 prefers Si-H containing crosslinking agents, it also specifically shows a crosslinking agent that has at least three hydrolyzable groups per molecule *and* meets the claimed condensate. See the methylethoxy polysiloxane on page 4 of the English language translation. With this in mind, the teachings in DE '085 still anticipate the instant claims. This methylethoxy polysiloxane meets both the crosslinking agent (B) and the silane condensate.

On the other hand, the results shown reflect improved results when hydrolyzing a silane prior to adding to the rest of the composition, but this does not have an effect on the position of obviousness outlined in 4b. of the previous office action, namely the obviousness of using two different crosslinking agents instead of one. The results do not show unobviousness in using a combination of an Si-H siloxane and a methylethoxy polysiloxane over that which is shown in the working examples, using an Si-H siloxane in its own.

Finally these results do not reflect any unexpected or improved results when using a crosslinking agent having hydrolyzable groups. One cannot consider these results to be commensurate in scope with the breadth of the claims.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
